# Important changes to your service

**COMING IN JUNE 2024**

Your Community Choice Aggregation Service (CCA Service) with Orange County Power Authority (OCPA) will be ending. The transfer will occur automatically in June 2024 on your regular meter read date with no disruption to electric service. Southern California Edison (SCE) will once again be the provider for both the electric generation and distribution service for your account.

**THANK YOU FOR BEING AN ORANGE COUNTY  
POWER AUTHORITY CUSTOMER.**

**This notice is to inform you that your Community Choice Aggregation Service (CCA Service) with Orange County Power Authority (OCPA) will be ending. Southern California Edison (SCE) will once again be the provider of both the electric generation and distribution service for your account.**

On April 1, 2022, for commercial customers and October 3, 2022, for residential customers, OCPA became the default electricity supply provider for eligible customers located in the City of Huntington Beach. In May 2023, the Huntington Beach City Council voted to leave OCPA. By June 30, 2024, all Huntington Beach customers within the city will be switched to SCE bundled service. You do not have to take any action to be returned to SCE. The transfer of your account to SCE bundled service will occur automatically in June 2024 on your regular meter read date with no disruption to electric service.

- Prior to the transition, you will remain on your current rate schedule, subject to the rates and terms of OCPA.
- You should continue to pay your bills as you normally would. Your bill has always been processed by SCE.

OCPA, the City of Huntington Beach, and SCE are working closely to ensure a smooth transition for OCPA Huntington Beach customers to SCE bundled service.
